LeetCode:shaikh_asad21

OBJECTIVE

Third-year Information Technology student at SPPU actively seeking a software engineering internship to apply hands-on experience in full-stack development and AI/ML. Proven track record through internships at IBM and Infosys, with 3 deployed projects and 4 total projects spanning MERN stack, NLP, and cloud-based systems. Eager to contribute to real-world engineering challenges and grow within a collaborative technical team.

EDUCATION

Bachelor of Technology in Information Technology

Savitribai Phule Pune University (SPPU)

2023 – 2027

CGPA: 8.0 / 10

INTERNSHIPS

AI Intern

June 2025 – Aug 2025

IBM

- Developed and trained ML models using TensorFlow on IBM Cloud for structured data analysis and predictive tasks.
- Integrated IBM Watson APIs for NLP and Computer Vision solutions, enabling automated data extraction and classification.
- Designed and deployed cloud-based AI pipelines for model evaluation, performance monitoring, and optimization.

AI Intern

Sep 2025 – Dec 2025

Infosys

- Developed an NLP-based automated question generation system, improving question relevance and accuracy for adaptive assessment platforms.
- Implemented context-aware text processing and dynamic content generation algorithms to enhance assessment efficiency.
- Designed adaptive difficulty mechanisms based on user performance metrics to boost learner engagement and assessment outcomes.

PROJECTS

Smart Quizzer – AI-Based Adaptive Learning System

GitHub | LiveDemo

- Built an AI-powered adaptive quiz platform using the MERN stack, dynamically adjusting content based on user performance for personalized learning.
- Engineered NLP-based question generation aligned with Bloom's Taxonomy, cutting content repetition by 40% and boosting diversity across difficulty levels.
- Integrated Google Gemini API with real-time performance analytics tracking accuracy and response-time metrics, improving learning efficiency by 30%.

WonderLust – Airbnb-Style Property Listing Platform

GitHub | LiveDemo

- Built a full-stack Airbnb-style property listing platform with MVC architecture, centralized error handling, and secure Passport.js authentication.
- Integrated Cloudinary for scalable image uploads and OpenStreetMap Leaflet.js for interactive geolocation-based property visualization.
- Implemented RESTful APIs with session management, multi-user access control, and end-to-end property listing and review workflows.

Audio Transcriber – AI-Powered Audio Transcription Platform

GitHub | LiveDemo

- Built a full-stack audio transcription platform using Next.js, PostgreSQL, and Better Auth with secure session-based admin authentication.
- Integrated Gemini 2.5 Flash API via base64 encoding for real-time transcription, storing only text transcripts to minimize storage overhead.
- Deployed on Railway with Neon PostgreSQL featuring drag-and-drop upload, live transcription feedback, and transcript history dashboard.

TECHNICAL SKILLS

- **Programming:** C, C++, Java, Python, JavaScript
- **Web Development:** React.js, Node.js, Express.js, EJS, REST APIs
- **Authentication & Security:** JWT, Passport.js, Session Management
- **Databases:** MongoDB, Mongoose, PostgreSQL, SQL
- **Cloud & Deployment:** Render, Railway, MongoDB Atlas, Cloudinary, Neon
- **AI / ML:** Machine Learning, Deep Learning, NLP, TensorFlow
- **Tools & Technologies:** Git, GitHub, Postman, Leaflet.js
- **Core CS:** Data Structures and Algorithms (Arrays, Trees, Graphs, Stack, Sliding Window)
- Solved 110+ DSA problems on LeetCode with focus on problem-solving patterns and optimization techniques

CERTIFICATIONS

- Develop Gen AI Apps with Gemini and Streamlit – Google
- Artificial Intelligence – Infosys
- Deep Learning for Developers – Infosys

ACHIEVEMENTS

- Deloitte Technology Virtual Experience – Cybersecurity and Data Forensics
- Tata Group Virtual Experience – ESG Analysis and Data Visualization
- Coding Ninjas: Certified in Competitive Programming (3 Levels)
- Google Developer Group (GDG): Core Tech Team Member.

LANGUAGES

- English – Professional Proficiency
- Hindi – Native
- Marathi – Native
